Correspondence of The Tribune.
PHILADELPHIA, Sept. 25, 1842. Suicides are increasing of late and the unfortunate tendency to "shulle off this mortal coil" is doubtless strengthened by the newspaper announcements. A young weaver named Kyle, who cooled his burning brain in the Schuylkill, after a rum debauch, and a poor fellow who hung himself in prison, where he had been committed for the helious offence of taking a paltry pole from a boat, are among the last cases. I never see the public notice of a Saicide, without recalling to mind the protestations of an eminent physician of this city—the late Dr. Parish—against a custom which was so greatly promoted by this practical "precept and example." However this may be, in a general way, the bad state of the times and the killing kind of weather, are no doubt the moving causes in these particular in-

stances.

The theatrical contest is now in full biast, and the Quaker city never glattered in such floods of gas light before. Three theatres, and two very magnificent circuses, are all congregated within a stone's throw of each other. Out of doors the rivalry is between the big bills vad the big lamps; while within the walls, such displays of oriental splendor and regal elegance were positively liever before "witnessed in this or any other contary." Where all the gold comes from that shines upon the gorgeous decorations and strikes the gazers dumb with admiration, is a mystery that the banks can't solve. There has been great cry about bard times, but we have "all sorts of times" now and anon comes the winding up.

and resolved to assemble again this evening, and after that to hold regular meetings twice every week. This Convention was originally started at a meeting of Workingmen, called without distinction of parties, to take into consideration the distress of the times, the remedy, &c. Their permanent object is now announced to be "for mutual relief and other purposes." All well enough, may exceed mig well, if designing partisans are allowed to introduce none of their. if designing partisans are allowed to introduce none of their

The attempt to give undue importance to the Manayunk distorbance is wrong, although some of the papers appear disposed to make the affair a substitute for the "late and important intelligence," in which staple there is at present a deficiency. Some idle haed from weavers, in the Kin- FITEXAS .-- JONAS BUTLER, Attorsington District, entertaining a strong dislike towards the proprietors of one of the numerous tolls at Manayuna. made an attempt to revenge their supposed wrongs by destroying his building. The nelarious design was at once frustrated by the immediate organization of the villagers, aided by the Sheriff and one of the volunteer companies of the village. The weavers, after firing upon an individual, in the outskirts of the place, whom they slightly wounded, made a precipitate retreat. From the character of the per-paractous made for meir reception, and the very small num-ber at any time disposed to antic in so improduct a disturbance of the p ac, they will be cautions of any such at-tempt to future. These incipient riots will be methere-after in a different spirit from that which they have he eto force excess. The redit of Philadelphia tequires this, but fore received. The redit of Philadelphia requires this, but there is an additional incentive in the great expense into which the City and Coun y are run, by disturbances, which might be crush a in the bud, but which necome formidable by impactly. That prevention is better than cure is an old maxim which recent e.p. rience has addes some weight to. Manayunk is about seven miles from the city.

As a means of checking the highling propensities of our Firemen, it has been decided at a needing of the Pablic.

As a means of checking the fighting propensities of our Firemen, it has been decided at a mercing of the Public Authorities in the Districts and in the offices of the Fire Department, to form a Board of three persons fram each Company, to investigate all disputes and withhold the annual appropriations, \$200, or a portion thereof, from the offending Company. This may answer a good purpose, but the most effectual remedy would, no doubt, be to kick out the half grown boys who founge about the engine houses, ruin themselves and generally eriginate all the disturbances that have so deeply disgraced the Depa tment. An attempt was made some years since to have this nuisance corrected, but it was delegated through that curse of civilized communities—partizes politics.

The good cause is rapidly advancing. Meetings are held nightly, and our Whig forces were never better organized or more certain of victory. The Tyler organization disconnected and auxiliaries to 'wake up,' but they may as well have their nap out. Sleeping or waking

will be all the same to them: for the indignation against any thing in the shape of Typerism, and enthusiasm in behalf of Clay and a Protective Tarifi, are aimost universal. One evidence of this, and an indisputable one, is the great success of our two new daily Clay papers, in a city where so many are already established. On the other hand, the official organ of Tylerism—one of the rankest organs of ultra Loco Focolim—not only has been forced to come down one half in its price, falling from two cents to one, but is prevented from sinking only by forced Custom-House contributions. These are signs which cannot be mistaken. There is every thing to inspire confidence, and our friends were never more sanguine of sweeping every thing before them.

The Loco-Foco Tyler-ocracy hold a meeting to-morrow, Monday, night, for which great preparations are being made. Drums, fifes, flags and banners will be brought into requisition, and no doubt semething of a stir will be made, with a view of arousing the sleepers. But it is of no use. That division of Loco-Focoism which has the taint of Tylerism upon it is done for, in this section at least.

CRIM. Con .- A case of Crim. Con. was decided at the present session of the Court against a man by the name of Stubblebine, residing in the lower end of the County, who was fined \$133 331 and costs of prosecution, and sentenced to an imprisonment in the County Jail for one year, for his adulterous practices. Stubblebine is a member of short time: WYMOND BRADBURY. a new sect known by the name of 'Battle Axers.' which has recently sprung up in the lower part of this and the neighborhood Counties of Chester and Montgomery, who contend for a free intercourse between the sexes, maugre all the ties of affinity and consanguinity. The victim of infatuation plead his own cause, in which he argued the offence was altogether a matter of conscience-that he believed he had done nothing wrong, and would not hesitate to repeat his so-styled misdeeds. He, moreover, denied the right of an earthly tribunal to pass judgement on his offence, contending that it belonged to a higher power. The Court and Jury thought otherwise, and hence the above verdict and sentence. [Reading (Pa.) Gazette.

FOR THE LIERARY OF USEFUL KNOWLEDGE.-The following is given as an extract from a late unpublished English work on America:

"Levees are bluffs on American Rivers, where the slaves congregate to dance their aboriginal dances-at which great quantities of water-melons are drank. Paw-Paws, a species of large cherry, are used on the Mississippi to feed an animal called Hoosier, and the same river abounds with an odd fish called Sucker. It is great sport, in a town there called Kentucky, to shoot at the Corn-Crackers, a species of bird that infest the houses. The country, on the whole, is well worth a visit: but we advise a traveler to carry a life-preserver, for when the steamboats on the rivers are heavily loaded, and after the passengers have paid their fare, they open a boiler and blow some of the passengers overboard, to make room for those they expect to get at the next landing."

THOMSONIAN .- Do you want health, you abandoned Invalids?—Doctor Cyrus Thomson, o Geddes, Onondaga Co., and Dr. John Thomson, of Albany New York, have opened an Infirmary at 343 Broome street where many of the most desperate cases of Consumption Raising Blood, Dyspepsia Inflammatory Chronic Rheuma-tism, Scrofula and Dropsy may be cured, and many other distressing complaints may be removed after the failure of all other remedies. Call and see the patients now at the Infirmary under treatment, from whom facts can be learned that would not be prudent for others to proclaim as regards that would not be prudent for others to proclaim as regards their rapid improvement in health. Also see the original and complimentary letters from their Majesties the Kings of France and Prussia, and a massive gold medal from Louis Phillipe to Doctor John Thomson. These two brothers have had upwards of 20 years each of experience in the most desperate diseases of the country, as a host of testimony which they can adduce will certify, among which is the opinion of three several Committees appointed by the Legislature of the State of New York to examine said practice and Doctor Thomson's patients personally, in Albany. An interview with the patients at the Infirmary by others that are diseased will be satisfactory in the highest degree that are diseased will be satisfactory in the highest degree to the latter. Call and see them, as it will cost nothing but the trouble of the visit. Sait Rheum, Piles and Scrofula of \$25 lm

IFE! LIFE! LIFE!-" All that a man hath will be give for his life,"—so we find it re-corded in the most ancient and best of books, but when we see thousands dying all around us, with Consumption, Group, Cough, Asthma, Bronchitis, Spitting Blood, and other Pulmonary Affections, we are led to doubt the correctness of the above assertion, especially since it is so well known that a certain remedy may be obtained which al

DR. JAYNE'S EXPECTORANT never fails to give re lief, and always cures after every other means have failed. TULL'S TRUSSES.—Notice to Ruprely upon the best instrumental aid the world affords, on application at the office, No. 4 Vesey-street, or to either of the agents in the principal towns in the United States. Be careful to examine the back pad of Hull's trasses, to see if they are endorsed by Dr. Hull in writing. None are genu-ine, or to be relied upon as good, without his signature. Many persons have undertaken to vend imitations of Hull's celebrated trusses, and thousands are imposed upon it consequence. These imitations cannot be relied upon; they are made by unskilful mechanics, and are no better than the ordinary truss-s.

A gentleman from Windsor, (Province of New Brunswick,) was passing through here on his way to Boston, to get cured of Broachitis, when I re o maended to him your Expectorant. It did the needful for him, and he returned home perfectly cured.

The Expectorant has brought one man to life here after his physicians had given him up, and he had taken nothing for three days. His complaint was called consumption. I happened to call in, and saw him in a very distressed situation. I recommended his wife to try the Expectorant, thinking that it might give him some ease, and he would expire with less agony, but he recovered right away. The Doctors blew me up. Yours, &c., in haste.

WAR! WAR! WAR!—The Wig-AR: WAR: WAR: He Wighter Markers have declared bostilities against our neighbor, Dr. JAYNE, on account of his HAIR TONIC, which is knocking all their business into a 'cocked hat' Ladies and Gentlemen, old and young, are flocking to the Doctor's standard. Heads long divested of even the first rudiments of hair, after using his Hair Tonic, soon appear with new and flowing locks, which Absalom himself mght have envied. Beardless hoys are seen with large and bushy whis kers, and laates smile again through their own raven ring less, mare beganitul and hewitching than ever. Ba'd heads lets, mere beautiful and bewitching than ever. Ba'd heads are doffing their wigs and throwing them to the 'moles and bats,' while the wig-makers stand aghast as they behold the

demolition of their business.

What will be the consequence of this war we know not, as the wiggies are outrageous and the Doctor remains firm, and declares that 'some things can be done as well as ethers,' and that Bald Heads may as well wear their own hair as the hair of other people.

WORMS IN CHILDREN.—Of all

diseases to which children are exposed, none are so fatal to them as Worms. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls and obtained the body and frequently the threat causing con-

to another, winding themselves up into large balls and obstructing the bowels, and frequestly the threat, causing convulsions, and too often seath. The desired remedy will be found in DR.
